

Journey of lifelong learning begins at NEXTGEN KIDS

Our Features :

Care :

Your Children are safe and secure in our hands. Our classrooms and surroundings provide fun-filled, comfortable and safe environment for your child. We use best of class specially designed apparatus and materials.

Teachers :

"The mediocre teacher tells. The good teacher explains. The superior teacher demonstrates. The great teacher inspires." - William Arthur Ward.

Our teachers are committed to teaching and nurturing your children who are at this age of immense growth and change. Each teacher plays an important role in encouraging your child's zest for learning.

Curriculum & Methodology :

Our curriculum is designed to provide all-round development for your child. We use Play-Think -Explore-Learn method of teaching by using sensorial development activities. Our low student / teacher ratio enables individual attention and care. We use "Modern Teaching Aids". Sensorial Development Activities with Touch-Explore-Learn methods.

* **Interactive Smart Books:** We are born with five amazing sensory instincts that we learn from. We can see, hear, speak, smell and touch. You would have noticed the difference in your quality of experience when what you are doing involves one or more of your senses. Interactive Smart Books - The right bit of technology for your child to enjoy learning in the most traditional, organic and simple ways. Simplify everything!

Welcome to Nextgen kids pre school

Mission Statement

To create responsible next generation citizens by providing best pre-school education in the world.

We will accomplish this by ..

Nurturing each child's unique qualities.

Developing research based advanced curriculum.

Maintaining life time relationship with the kids, parents & society.

Creating a family friendly environment.

Encouraging children to become experts in their interested fields.

New direction in education

We believe that Education is more than giving knowledge. It's about inspiring children to do significant things.

Our curriculum is inspired by globally accepted teaching methods. We believe that any kind of learning should be the outcome of the actual experience. Curiosity is encouraged and learning is always a fun-filled, exploratory process.

The environment has been carefully designed to encourage exploration and experiential learning in a fun-filled and interesting way. The physical environment at Nextgen kids provides opportunities to Play-think- explore- learn.

We offer the following programs :

AGE	CLASS
1½ - 2½ yrs	Play Group
2½ - 3½ yrs	Nursery
3½ - 4½ yrs	LKG
4½ - 5½ yrs	UKG
5½ - 10½ yrs	I to V Class
2 - 10 yrs	Day Care

Playgroup

Children who are eighteen months of age, can be enrolled in the Play Group. One and two year olds are nurtured by teachers within their own classrooms. Learning times are suited to the child's attention span, interest, and stage of development. They participate in stories, songs, art experiences, imaginative play and games to promote social development, Intellectual ability, language development and communication, self-help skills, sensory stimulation, large and small muscle development and creative development. Colors and shapes introduced as well as singing the ABC song and counting to 10.

Nursery

Children who are two years and six months of age, can be enrolled in the Nursery program. Children have pre school classes with many activities to help them learn colors, shapes and spatial relationships. Their program contains a range of learning experiences to help them gain self-control, self awareness and decision making abilities. They learn about nutrition, health, community helpers and personal safety. They also start learning to read and write letters and numbers and to count to 20. The emphasis is on learning through popular rhymes, engaging stories and absorbing activities.

Pre-Kindergarten (LKG)

Children who are three years and six months of age, can be enrolled in the Pre-kindergarten program. Songs, Stories and printed materials help children learn names and sounds of letters and number concepts. They learn to blend letters together and may begin to read. They also start learning to read and write letters and numbers and to count to 50. Our Program also teaches pre-writing and pre-math skills and environmental studies. Children are encouraged to experiment, create, and explore.

Kindergarten (UKG)

Children who are at the age of 4 years and 6 months can be enrolled in Kindergarten. Kindergarten program focuses on developing four skills of language : listening, speaking, reading, and writing. Our teachers lead the classes in the areas of phonics, reading, language, mathematics and environmental studies. They also start learning to read and write letters and numbers and to count to 100. Our program also includes pre-reading, Developmental thinking, and English conversation. A sufficient number of child friendly and creative activities are interspersed in the lessons so that the child's introduction to mathematics is enjoyable.

Primary Classes (I-V Class)

Children who are at the age between 5½ years to 10½ years can be enrolled into primary classes. Primary program is focused on CBSE curriculum with extra co curricular activities such as Music, Art, Dance, Yoga etc. The digital class rooms and computerized lesson plans will help the children to learn the things in the better way.
